Dear Dr. Sulaeman,

This is with reference to your manuscript entitled **“The Abda’u Ritual: Ethnographic Communication Study of Tulehu Society in the Moluccas, Indonesia”** submitted for publication in the International Journal of Criminology and Sociology. It is my pleasure to inform you that the referees have suggested to accept your manuscript after some minor revision.

You are required to revise your manuscript according to the referees’ comments below, in addition to these comments also please have a look at Editorial Requirements at ‘**Authors Guidelines**’ particularly in term of reference section when revising your manuscript. We greatly, anticipate submission of your revised manuscript (in **MS-Word** or **LaTeX**) **in a week**.

Reviewer comments 1:**The paper needs minor revisions, especially in the introduction, research methods, and Technical Quality.****Introduction**

Introduction part presents narrow explanation regarding research motivation, novelty, and objectives. In this part, the authors should elaborate more on the objectives, focus on novelty and detailed on research motivation.

Research Methods

Author (s) did explained 25 people as informants, however the Authors (s) not mentioning any key informants, communication situations, and context in which communication occurred.

Technical Quality

In the manuscript, the Authors (s) mention a lot regarding “as illustrated in Fig. 1, as illustrated in Fig. 2 and as illustrated in Fig. 3”, however there is not any Fig. displayed.

Citations

The paper show inconsistent in citation related with typography, year citation and co author miswriting. For example, it cites Velkora 2016 while there isn't any velkora in reference. In reference it shows Velkova. Furthermore there is also inconsistent regarding the year that author (s) cite. The author cites Trahan 2014 while in reference 2013. The paper cites Baxter 2008, while in reference it cites Baxter and susan 2008. The author (s) need to be clarified this err, whether it is Velkora or Velkova, 2013 or 2014, and Baxter or Baxter and Susan. By doing this revisions, the author (s) appreciate others authors and their findings.

Reviewer comments 2:

There is need to work on grammar and sentence formation.

Follow suggested font and style (check author guidelines)
