Dear Authors,

I have reviewed your latest amended manuscript. However, there are a few more discrepancies found in your final manuscript.

I have highlighted the errors and made the necessary changes to fulfill the standard format of the journal. Please use the manuscript that has been checked as attached. Before you add anything to the manuscript, please **turn on the track change mode** of the Word file.

You are given 5 working days (due **17 June 2022**) to make the corrections and return the amendment by replying to this email.

Please confirm to us these details too for further publication process:

1. Scope of the article (please refer here for PJSSH Scope): **Sociology**
2. Type of paper (case study/ review paper/ regular article/ short communication):

There is one issue that must be solved for the publication process. I have run the Turnitin check for the latest version of the manuscript for publication.

A slightly higher than 20% of similarity index will be acceptable after a few cycles of revision. However, the latest version of the manuscript has a 38% similarity index. The 36% of the similarity is from ONE SOURCE of reference, which is not acceptable according to our policy. Please refer to the Turnitin report attached for the details.

Thus, you have to amend the latest manuscript so that the highest similarity index is reduced to a maximum of 20%. You can refer to the report attached for reference.

Thank you.
